

DATE: September 28, 2005

PRODUCT: EMI

FROM: Technical Service Department

TITLE: Introduction of Plastic Blower Wheel & Dual Plastic Blower Wheel

MODELS AFFECTED:

WHP-9/12*	WHP-15/18*	WHP-24/30*	WHP-36*
------------------	-------------------	-------------------	----------------

* Cooling only. This change does not affect WHP models with electric strip heat.

SERIAL NO. RANGE: *1-05-G & newer.*

SITUATION:

To help prevent balancing problems and damage due to rough handling during shipment, a plastic tangential blower wheel will be used in WHP09 thru WHP18 COOLING ONLY air handlers. These plastic blower wheels offer a better resistance to shipping damage.

For the WHP24 thru 36 models, a dual plastic tangential blower wheel will be use. (See Illustration #1).

IMPORTANT: WHP models with ELECTRIC HEAT will continue to use the aluminum tangential blower wheel due to the higher temperatures associated with electric heat.

EFFECTIVE DATE:

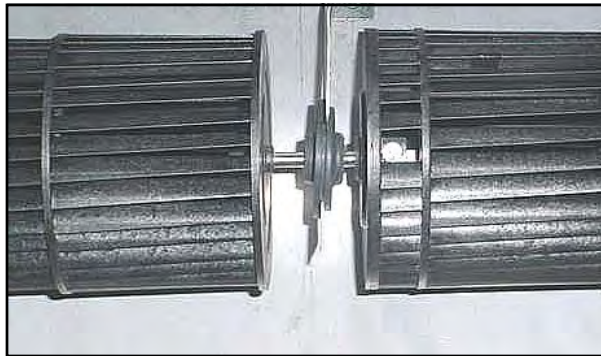

Plastic tangential blower wheels were introduced into production on July 9th, 2005. Therefore, any WHP air handler with NO ELECTRIC HEAT that has a serial number of 1-05-G or newer will have the plastic wheel.

NOTE: Plastic blower wheels are not intended for use on product built prior to July 9th, 2005.

(OVER)

ILLUSTRATION #1

Part numbers for the new plastic blower wheels are:

<u>MODEL NO</u>	<u>BLOWER WHEEL PART NO.</u>	<u>QTY.</u>
WHP 09/12	240-4694	1
WHP 15/18	240-4695	1
WHP 24/30/36	240-4770 (Left) 240-4771 (Right)	1 ea.
WHP 24/30/36	240-4772 (Center Bearing)	1
WHP 24/30/36	109-5733 (Bearing Support)	1
